

The Company Training Meeting.

Predictability is key. Regularly occurring training meetings provide everyone with predictability. The military can be considerably unpredictable. It is imperative that the command use tools like this to maintain constant communication and create as much predictability as possible.

Changes are inevitable, regular effective meetings give the company a greater ability to adjust course while simultaneously understanding where it needs to be.

This company uses a weekly battle rhythm event, the company training meeting, to review training conducted, discuss planned training, and share lessons learned through the after action review (AAR) format.

NOTE: Collective Training Event Meeting

There are times throughout the year when the company will hold separate training meetings for specific collective training events (e.g. Squad Collective Exercise). These in-depth training event meetings are scheduled within the planning timeline for the event and are only briefly reviewed during the routine training meetings.

The training meeting is preferably conducted towards the end of the week depending on competing battle rhythm events. Like physical fitness training, all battle rhythm events must be adhered to in order to keep structure amidst the constant irregularity of daily operations.

The executive officer serves as the coordinator for these meetings. Slides are submitted by each platoon two days in advance of the scheduled meeting.

The meeting lasts approximately one hour in length maximum. The executive officer serves as the host and beings the meeting by covering the agenda and reviewing the next eight training weeks as well as briefly covering any large training events that will require coordination external to the company.

Each platoon briefs the commander and first sergeant a review of training conducted during the previous week to include training to be conducted the following week.

Platoons assigned as the project lead on a major unit training event will brief their upcoming event following a review of each platoon's training weeks (e.g. Company Land Navigation Course).

The commander will issue any final guidance at the close of the meeting.

TRAINING MEETING

WEEK : 28

Training Meeting - AGENDA

- Training Review (Company, 14-WK)
- Training Review (Platoon, Current Week)
- Training AAR Comments
- Training Review (Platoon, Week+1)
- Major Training Event Review
- Closing Comments

Agenda.

The Executive Officer will begin the meeting discussing the agenda and ensuring all participants are present.

Platoon Brief.

Each platoon briefs the last week's training, followed by any AAR comments (next slide), as well as the next week's planned training (slide after next).

Last week's training can be the current week's training depending on when the training meeting is held. This could also be the previous week's training: leaving out the current week for the present week. This method is left to the commander and executive officer so long as each week is eventually discussed throughout the progression of the training meetings.
